A CURE FOR CONSUMPTION. 7,000 Cases of Obstinate Pulmonary Complaints

Cured in One Year! 8 Wister's Balsam of Wild Cherry, The Great American Remedy for Lung com-plaints, and all Affections of the Respiratory Organs

WE do not wish to trifle with the lives or health of the afflicted, and we sincerely pledge ourselves to make no assertions as to the Virtues of this medicine and to hold out no hope to suffering humanity which facts will not warrant. We ask the attention of the candid to a few considerations.

Nature, in every part of her works, has left in dellible marks of adaptation and design.

The constitution of the animals and vegetables of the torrid is such that they could not endure the cold of the frigid zone, and vice versa. In regard to disease and its cure, the adaptation

is not less striking.

The Moss of Iceland, the Wild Cherry, and Pine of all northern latitudes, (and Dr. WISTAR'S BALSAM is a compound chemical extract from these,) have long been celebrated for complaints prevalent only in cold climates. Indeed the most distinguished medical men have averred that na-

ture furnishes in every country antidotes for its own epculiar diseases. Consumption, in its confirmed and incipient stages, Coughs, Asthma, Croup, and Laurr Complaint, form by far the most fatal class of disease known to our land. Yet even these may be cured by means of the simple yet powerful remedies named above, and which are scattered, by a beneficent Providence, wherever those malad

Messrs, Sanford & Park: GENTS: I take this opportunity of informing you of a most remarkable cure performed on me by the use of Dr. Wistar's Balsam of Wild Cherry. In the year 1840 I was taken with an inflamation of the bowels which I labored under tor six weeks, when I gradually recovered. In the fall of 1841 I was attacked with a severe cold, which seated itwithout benefit, and thus I wearred along uptil the winter of 1844, when I heard of "Wistar's Balsam

This invaluable medicine was prepared from an extensive practice of several years in a billious climate, and is NEVER KNOWN TO FAIL of curing Fever and Ague or any of the diseases above named

Those who are suffering from diseases of this kind, as also those who have become invalids from their effects upon the constitution, will find the INDIA CHOLAGOGUE a most invaluable remedy for purifying the blood, and thoroughly cleansing from the system the morbid effects of a billion

climate. The wonderful operation of the Cholagogue in radicating BILE from the human system, can only explain its extraordinary agency in the speedy, THOROUGH and PERMANENT CURE of FEVER and AGUE, and the various grades of intermittent and remittent fevers.

From Hon. Ross WILKINS, United States District Judge for the District of Michigan. DETROIT, Oct. 30, 1841.

Mr. E neard Bingham; DEAR SIR-With great pleasure I state the fact of the complete and radical cure of the Fever and Ague with which my son William was attacked, by the use, pursuant to directions, of Dr. Osgood's Indian Cholagogue. He had as severe an attack as I ever withessed, and I apprehended a long winter of this disease, which was some years ago the case when I resided at Tecumseh. But I was providentially led to notice your advertisement in relation to this medicine-determined to try it, and the use of one bottle broke the disease, and I can confident has effected a radical cure, as two months have now clapsed without a return of it, and my son is in the enjoyment of robust health. It is an invaluable medicine and should be generally known. Truly, your friend, Ross Wilkins.

DEMOCRATIC REVIEW. Greatly reduced price-from \$5 to \$3 a year Prospectus of the next (or 12th) Volume The price of the Democratic Review has heretofore been too high—not for its size, cost and character, but for the mesos of tens of thousands of readers who would be glad to receive it, and among whom it is it ship desirate that it should circulate. For the purpose, therefore, of largely widening the range of its use suiters, and of multiplying the range of its use suiters, and of multiplying the numbers of those to wi on it may be accessible, it has been deternated, simultaneously with the great reduction in the expense of the postage, to reduce its subscription price about

from Five to Three dollars; and when several unite in subscription, to as low as 2,50 cer to or even 2,20 This very large reduction in the receipts faccompanied with but a comparatively small dis of its expenses, involves, of course, an entire sacrifice of profit up. if, unit as compensated by a vast multiplication of its subscribers. There all be at the outset only a smar, -- duction in its numher of pages; soon to be restore to its old number, without increase of price, when the anticipated suc-

cess of the experiment shall justify it.

The Portraits of Di ting uished Democrats will be continued-ergraved in better and more costly tyle than heretotore. The postage will hereafter, for any distance, be only five and a half cents; it has heretelore, for

over 100 miles, eighteen cents.

We look for an extension of circulation to be reckoned by tens of thousands, as the result and compensation of this great reduction of price. Evprinciples and cause, is confidently appealed to, to exert himself with an active interest to procure it subscribers; both to extend its usefulness, and tocarry it successfully through the crisis of this great reduction of its receipts.

Those who have paid in advance for the coming year, will receive it, at the reduced rate for a year

TERMS HENCEFORWARD.

(Invariably in Advance.)
Single copy, \$3,00 | Eight copies,
Four copies, 11,00 | Thirteen " Four copies, 11,00 | Thirteen " 30,00 It will thus be seen that when thirteen copies are ordered at once, the price is brought down to about \$2 30 each. For six months, half these rates.

These rates afford high inducements to agents and others to interest themselves to procure subscribers.

The cash system and payment in advance must be uncompromisingly adhered to. The pastrelax-ation of it has caused an accumulation of not far from forty thousand dollars of debts due to the work. Hereafter this must be wholly reformed; nor must either the most eminent political friend,o the most intimate personal one, be displeased on experiencing its application, in the stoppage of their numbers, if they neglect this rule; the vital neces-sity of which, at the present reduced rates, must be obvious to all.

No communications will be taken from the Post Office unless free of postage.

All communeations, both on editorial and publishing business, must be addressed henceforward to the undersigned. Those relating to the settle-ment of the past debts due the work will be still addressed to Mr. H. G. Langley, 8 Astor House, the past arrangements with whom, as publisher, have reached their termination.

J. L. O'SULLIVAN, 136, Nassau street. N. Y. Aug. 23. Last Likeness of General Jackson. The admirable Daguerreotype of General Jack-on, taken by Anthony, Edwards, & Co. a few weeks before his death, has been purchased for the use of the Democratic Review. It is in the hands of the artist, and will be engraved in the finest style of mezzotint of extra size. It is a most beau-tiful and interesting work, declared by Mr. Van Buren and others to give a more perfect idea of the good and great old man than any other likeness; and ought to be possessed and framed by evey friend who loves or reveres his memory.

BY JESSE E. DOW AND COMPANY. The first number of our new paper will be issued on the first day of May next; with an entire new dress—new type, fine white paper, with other important alterations and improvements. The paper will be devoted to a fearless exposition of democratic principles; it will zealously and unremittingly oppose each and every effort to establish a mammoth, monarchy bank and other mischievous corporations and consolidations of wealth, which subvert the rights of the people and undermine the pillars of the republic; it will oppose an oppressive and anti republican tariff system, the assumption of the State debts by the general government, and all other federal principles which have an inevitahie tendency to destroy public prosperity as well as well as individual happmess. Against all such political delusions we shall wage unchanging, un-

compromising war. The Farmer and the Mechanic who produce all the nation, will find in our paper an unwavering champion of their inalienable rights; the long cherished principles of the editors are too well known to the public to require any pledge upon this point. To the Miscellaneous Department particular at-tention will be devoted; the Ladies will always find in our columns a choice selection from the current literature of the day, as well as original contributions from the most talented writers of which our country can boast. A general summary of foreign and domestic news will be furnished

The conductors have already secured the aid and co-operation of a large number of the most distinguished literary and political writers of the day; arrangements will also be made at the earliest; period possible, to embellish our columns by the ontributions of correspondents from abroad .-With this brief and imperfect outline of our plan, we very respectfully submit our claims to an extensive patronage to the consideration of a generous THEOPHILUS FISK, Editors JESSE E.
